Tent Revival for Agnostics

Matthew T. Taylor, Sr.

You don't have to live with the superstitious fear of Hell Fire and The Last Judgment. Did you know those things can't co-exist with a "God" defined as omnipotent, omniscient and omni-benevolent?

Religious funda-MENTAL-ism may be the thing that takes our planet to the brink of extinction. We can unify the human race by theorizing our ultimate issues and not doctrinalizing the unknown.

If you've had questions about the validity of western religious doctrine, this short book of inductive and deductive reasoning will ignite the "BIG BANG" in your search for truth. I GUARANTEE IT !
